PERSONAL PROFILE

I am a web developer with front and back end skills necessary to develop responsive web design as well as dry, clean and accessible applications. My passion for problem solving, an eagerness to learn and adapt to new technologies are strengthened by my previous experiences in web development & consulting roles.

SKILLS

- Front End Skills

HTML5	CSS3	JavaScript	jQuery
React	Responsive UI	SASS	WCAG

- Back End Skills

node.js	JAVA	SQL	NoSQL	XML

- Other Skills

SEO	Git	API	A/B test	MS office

CERTIFICATE

Codecademy
- Node.js
- Vue.js
- jQuery

EDUCATION

Juno College, JavaScript / Immersive Bootcamp   AUG 2020 - MAR 2021
- HTML, CSS, JavaScript / ES6, React, REST APIs, Firebase, Git
- Responsive UI, accessibility(WCAG), Paired programming

Hanyang Univ., Urban Engineering   FEB 2007 - FEB 2013
- GPA(4.01/4.5), Statistical Programming(SAS), Data Analysis, Adobe Photoshop, Mathematics, Physics, GIS

RELEVANT EXPERIENCE

Juno College, Mentor   APR 2021 - PRESENT
- Assist cohort 32, 33, Coding 101 Workshop

Samsung SDS, Junior Web Developer   JAN 2013 - JUL 2015
- Managed main page, sign in, log in/out systems (https://samsungfire.com/m) using HTML, CSS, JavaScript, Java, SQL, SVN in a cross functional team.
- Improved client's(**Samsung F&M Insurance**) web application with TDD without any issue, and maintained the system by proactively monitoring live logs to ensure quality with responsibility.
- Carried out many projects by collaborating with different companies in fast-paced environments. Applied new security tools, enhanced accessibility, and launched a new mobile application.

PROJECTS

Popsipoll, <link>
HTML, CSS, SASS, JAVASCRIPT, REACT, FIREBASE
- A responsive React project that provides create / share / vote polls & poll results with dark / light mode and preview poll functions.

Random Recipe, <link>
